

AMENDMENT TO RECOGNIZE WORKERS' COMPENSATION  
COVERAGE FOR THE CONSTRUCTION INDUSTRY

1. This Amendment is entered into between the Montana Department of Labor and Industry ("Montana") and the Wyoming Department of Workforce Services (Wyoming") to amend that certain Agreement regarding extraterritorial coverage of workers' compensation insurance entered into on July 1, 1968, by and between the Industrial Accident Board of the State of Montana and the Workers' Compensation Division of the State of Wyoming ("the Agreement"), which is attached as Exhibit 1 to this Amendment.

2. Montana and Wyoming are the successors in interest to original parties of the Agreement, and each have the regulatory and legal authority under their respective state laws to enter into agreements with a sister state regarding extraterritorial workers' compensation coverage.

3. Montana and Wyoming jointly agree that the Agreement is amended to expressly include the recognition of reciprocal extraterritorial workers' compensation coverage for employers engaged within the construction industry, as defined as meaning those employers listed in major group 23 in the North American Industrial Classification System Manual.

4. Montana expressly intends this Amendment to satisfy the provisions of Mont. Code Ann. § 39-71-402, with regards to employers in the construction industry.
