

Wyoming Workers' Compensation
New technology/Procedure/Therapy/Treatment Request for Medical Review

Any Health Care Provider (HCP) requesting a formal review for a new technology, procedure, therapy, or treatment should complete this form and submit to the Division of Workers' Compensation. The Division will schedule the medical commission to review the submitted information for clinical recommendations.

The medical commission will at a minimum request to review at least two good prospective, randomized, placebo-controlled, double-blind studies. The quality of the evidence will be considered and a clinical determination will be recommended to the Health Care Provider.

**Please fax request Attn: Susie Harrison RN, BSN @ 1-307-777-8724
